BEST QUALITY - LOWEST PRICE

Prices do not affect the quality of my work- no matter the cost or the amount of viewers it will have. My prices are kept very low because I work on a private schedule and limit my advertising expenses by relying more on word-of-mouth, rather than pricy newspaper and magazine ads. Just Look around! Most artists charge up from \$30 an hour with logos often starting at around \$200.00.

ABOUT GRAPHIX-GODDESS DESIGN

As a long-time freelance artist, I am backed by over 10 years experience in CG art and web design. I hold a BA in Broadcasting and Electronic Media with experience in video production as well as computer graphics and web design.

For about 3 years, my professional work had been published in several newspapers while working as the lead Graphics Designer.

My art has been featured on hundreds of web-sites around the world. I have also done many flyers, posters, letterheads, invitations and other printed documents for dozens of companies.

I now work with various companies and individuals and currently design business cards for an organization in NY.

NOTE: I consider myself a very driven artist who understands the importance of aesthetics. I'm also a perfectionist when it comes to my art. I do no job without putting my best effort into it. My job is not complete unless you are satisfied with the results.
